

## CERTIFICATION

I, Daryl T. Hunter, hereby make the following certifications under penalty of perjury. I understand that this Declaration will be submitted to the Federal Communications Commission.

1. I am Senior Director, Regulatory Affairs of ViaSat, Inc.
2. I have reviewed the foregoing application for authority to modify ViaSat's license call sign E120075 ("Modification Application").
3. To the best of my knowledge, information and belief, ViaSat has coordinated the technical parameters of the proposed M32 antenna with each of the operators of all co-frequency NGSO FSS systems and all co-frequency GSO FSS space stations within 30 degrees of the target satellites identified in the Modification Application, and each operator is aware of ViaSat's proposal to operate with power densities in excess of those specified in Section 25.138(a) of the Commission's rules and has stated that they have no objection to such operation under the coordinated parameters.

  
Daryl T. Hunter
